Washington, D.C.

ANSWERS TO SOME QUESTIONS.

All plants, shrubs, or trees offered in this catalogue can be planted with success in the spring.

The planting season varies; sometimes beginning as early as March 20, sometimes as late as April 6.

For fall planting the best results are obtained with Herbaceous Perennials, from September 15 to November 1. They should be protected with a mulching of pine needles or some other like material.

If it is desired to plant Evergreens in the fall they should be planted the last week in August or the first week in September. Here the percentage of loss on Evergreens planted in the fall has always been much larger than on the same stock planted in the spring.

All deciduous shrubs and trees, including all the fruits offered, can be planted in the fall as readily as in the spring. These are generally ripened enough to ship from October 20 to November 1; but occasionally these dates must be advanced. From the time they are ripe until the ground is frozen it is perfectly safe to plant; the later the better.

Azaleas, Hybrid Roses and Rhododendrons should be planted in the spring only.

Planting:—Puddle every plant in mud about the consistency of thick cream. Let the hole be large enough to take the roots easily. Tamp the earth in about the roots as firmly as you would set a fence post. This for thoroughly well cultivated ground. If the ground is sod; trench to the depth of two feet, leaving the fine soil on top. Single trees or shrubs planted in sod: make the hole at least three feet in diameter and two feet deep; put the sod in bottom of the hole and use the fine soil to plant the tree.

Manure:—Well rotted stable manure the best; hard wood ashes good; if you cannot get any of these, use any commercial fertilizer.

Starved plants will not thrive. Plants overgrown with weeds and grass will not grow. They should be hoed once in ten days.

No. 87

PRICE LIST

Of Hardy, Ornamental Trees, Hardy Flowering Shrubs, Evergreens, Roses, Bulbs, Herbaceous Plants, Fruits, etc., for Parks, Cemeteries, Gardens and Public and Private Grounds.

OLD COLONY NURSERIES, PLYMOUTH, MASS., U. S. A.

Home or foreign orders filled with utmost care and promptness.

GUARANTEE. We take the greatest pains to have every plant marked true to name. Any plant incorrectly marked will be promptly replaced, or money returned. We do not guarantee any more than the original cost of the plant.

We cannot guarantee plants to live, at the prices of this catalogue. We send out young, thrifty plants; which should live if properly planted and cared for.

ORDERS. Please use the order sheet and fill out all the blanks. Write your name and shipping address (also P. O. address, if different) as clearly as possible. Say whether you will have them sent by express or freight. Remit by check or P. O. order. Stamps for small amounts. Please follow the order of the catalogue and carry out prices.

PACKING. is charged at cost of the case or bale.

Delivery of all packages to freight or express free.

We do not pay either freight or express.

All plants at the risk of the purchaser after they are delivered to the public carrier.

Notify us at once of any delay in receipt of stock.

Notify us promptly of any error in filling order.

From the following lists; five at the ten rate; fifty at the hundred rate.

Special quotations will be given for plants in quantity and to the trade.

Alphabetical List of Common Names with corresponding Botanical Name.

To avoid confusion please order by the Botanical Name. For instance Japanese Privet means either *Ligustrum Ovalifolium* or *Ligustrum Ibotia*; Japanese Rose means either *Rosa Multiflora*, *Rosa Rugosa*, *Kerria Japonica* or *Rosa Wichuriana*. Additions to this List will be gladly received where the plant is offered.

Adams Needle—*Yucca filamentosa*
 Alder, Black—*Ilex verticillata*
 Almond, Flowering—*Prunus Japonica*
 Althea—*Hibiscus Syriacus*
 Angelica Tree—*Aralia spinosa*
 Apple, Flowering—*Pyrus*
 Arbor Vitæ—*Thuja* or *Thuya*
 Arrow wood—*Viburnum dentatum*
 Ash—*Fraxinus*. *Pyrus*
 Azalea—*Rhododendrons*
 Baby's Breath—*Gypsophila paniculata*
 Balm of Gilead—*Populus balsamifera*
 var. candicans.
 Balsam Fir—*Abies balsamea*

HYBRID PERPETUAL ROSES

Hybrid Perpetual Roses: grafted low on a stock that does not start easily. Have found these far better than the same varieties on own roots. Well established field grown plants are offered. They should be planted deep in well enriched soil. Plant three or four inches above the graft. Cut back to six inches after planting.

The following selected varieties are offered at 25 cents each; \$2.25 per ten; \$20.00 per 100.

Abel Carriere, velvety crimson.	Coquette des Alpes, white.	Harrison Yellow.
Alfred Colomb, carmine.	Captain Christy, delicate rose.	John Hopper, bright rose.
American Beauty, red.	Fisher Holmes, dark red.	Jules Margottin, bright rose.
Anna de Diesbach, pink.	Frau Carl Druschki, white.	Kaiserin Augusta Victoria, white.
Baron de Rothschild, light rose.	Gen. Jacqueminot, dark red.	Killarney, soft rose.
Br. de Bonstette, rich maroon.	General Washington, crimson.	La France, silvery rose.
Caroline Testout, satiny pink.	Gloire Lyonnaise, light yellow.	La France, pink.
Celine Forestier, light yellow.	Gruss aus Teplitz, scarlet.	Liberty, rich crimson.

Magna Charta, pink.
 Mme. Gabriel Luizet, soft rose.
 Mme. Plantier.
 Marchioness of Londonderry, white.
 Margaret Dickson, white.
 M. P. Wilder, carmine red.

Mrs. R. G. Sharman Crawford, pink.
 Mrs. John Laing, pink.
 Mrs. Charles Wood, crimson.
 Monsieur Bonneine, dark red.
 Paul Neyron, dark rose.
 Persian Yellow.

P. C. de Rohan, deep crimson.
 Soleil d'Or, yellow.
 Ulrich Brunner, cherry red.
 Viscountess Folkestone, creamy
 white, tinted flesh.

Decorative Perennial Herbaceous Plants.

These plants are all hardy and produce an immediate effect, as they bloom the first year they are planted. The autumn is the best time for putting out herbaceous plants; they should be covered with a forkful of dung to protect them from being thrown out by the frost. They may be planted in the spring, also, with great success. I offer the following choice collections of my own selection, in the very finest and most useful sorts. This class of plants is fast taking the place of bedding plants, as they do not have to be renewed every year.

Collection of 12 choice sorts, all different, named,	\$2.50	Collection of 50 choice sorts, named,	\$5.00

Peonies—New Chinese and Japanese Herbaceous.

Well Established Plants from the Open Ground.

These fine Japanese and Chinese Peonies are well known to be the most showy flowers in cultivation, and are particularly adapted to our climate. They are entirely hardy and bloom a long time. They are accordingly very much used now for large masses in cemeteries, parks and pleasure grounds; and may be followed by Lemoine's beautiful new French Gladiolus, the stiff foliage helping to support the spikes of the gladiolus. Gladioli should be planted among the peonies in May.

Plants are now twenty-five cents, your choice. Twelve, all different, named sorts, my choice, \$2.50. Twenty-five, all different, named sorts, my choice, \$5.00.

Plants are divided of these named varieties. They will have from one to three eyes. When planted in the fall about 80 per cent. bloom the following year.

- ALEXANDER MÈCHIN. Dark crimson with yellow stamens.
- AMBROISE VERSCHAFFELT. Dark Red.
- ANEMONE FLOWERED RUBRA. Dark red.
- BUYCHIL. Brilliant rose with salmon centre, full double.
- CAMILLE CALOT. Very dark rich rose, one color.
- CHARLES DE BELYME. Brilliant violet purple.
- COMTE DE NEIPPERG. Bright amaranth carmine.
- DELACHIL. Rich deep amaranth, full double.
- DE VILLANEUVE. Dark Pink.
- DUCHESS D'ORLEANS. Rose.
- EDOUARD ANDRE. Dark crimson with yellow stamens.
- EDULES SUPERBA. Full double large pink.
- FAUST. Deep pink.
- FESTIVA MAXIMA. White, 50 cents each.
- FRANCOIS FIRST. Pink, center salmon flecked with red. Free bloomer.
- INDISPENSIBLE. Rose.
- LOUIS VAN HOUTTE. Crimson. Extra good bloomer.
- LUCRECE. Rosy peach, center rosy white.
- MME. CHENEY. Pink shaded to white, extra large.
- MME. FURTADO. Deep violet rose, center bright salmon.
- MARECHAL VAILLANT. Very large, full double, deep pink.
- MARQUIS DE LA TOURETTE. Brilliant purple wine.
- NE PLUS ULTRA. Fine, full double rosy pink.
- PAGANINI. Brilliant rose, salmon center.
- POTTSI PLENA. Dark red.
- PROLIFICA TRICOLOR. White, yellow and red.
- PURPUREA SUPERBA. Large, dark red.
- REINE POTARD. Dark pink.
- RICHARD FETTERS. Light pink.
- SOUVENIR DE PORTEAU. Flesh color and light yellow.
- SOUVENIR D'AUGUSTE MIELLEZ. Rich violet purple, cup shape.
- SUPERBISSIMA. Full double, pink shading to white.
- VICTORIE MODISTE. Rich pink, center pink and white.
- VIRGINIE. Large delicate blush, suffused with pink.
- WASHINGTON. Bright red, center light salmon yellow.

Pæonia officinalis.

These peonies are very desirable, as they bloom a week or ten days earlier than the preceding sorts.
Price 25c. each; \$2.50 per dozen.

PÆONIA officinale, double red.

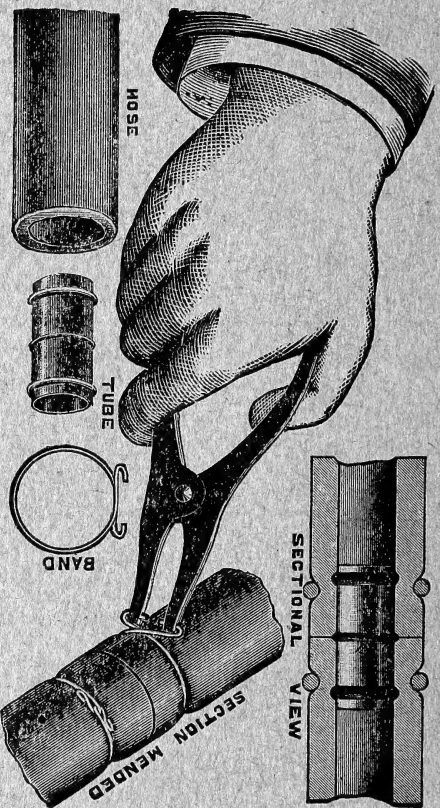

PÆONIA officinale, single red.

We are in correspondence with all growers of **hardy** ornamental nursery stock in the United States, in France, England and Germany.

Shall be glad to make special quotations on any ornamental nursery stock (hardy in New England) on lists calling for ten or more of a kind. When varieties not offered in this catalogue are called for, lists must be received before the middle of March.

Stocks run short in most unexpected places, the earlier long lists are received, the better the chance of procuring the stock desired, at a reasonable price.

Hudson Garden Hose Mender

This device is put up in boxes and is

Especially Adapted for Family Use

It is made in three sizes for $\frac{1}{2}$ -inch, $\frac{3}{4}$ -inch and 1-inch hose.

Each box containing one pair Pliers, 6 Tubes and 20 Bands.

The pliers made of refined iron, nicely japanned. The tubes

are of sheet brass, and the bands of best malleable brass wire.

The device is

SO SIMPLE A CHILD CAN USE IT.

Hose can be mended or couplings fastened on more securely than with any other device.

Every person who uses hose should have one of these boxes.

We furnish extra parts when wanted.

Directions for Using the Hudson Hose Mender.

Cut out the burst portion of the hose; insert one-half of the tube in one end, place one of the brass bands on the hose over the groove in the tube, pass the hook ends through the holes in the pliers, press the handles together hard, twist the pliers one-half round, bend the hook ends down on the hose. Proceed with other end as above. *Caution!* Twist the plier but half way round, as too much twisting may break the band. When ordering *be sure* and state inside diameter of hose. Sent prepaid by mail on receipt of 75 cents.
